

Winter 2020 Publication

Winter 2020 Publication

In this edition of the hospital newsletter, we share our new Strategic Plan with the community. We are very proud of this plan, as it was created with input from the community, our care partners, staff, physicians and volunteers. The newsletter also includes an equipment update regarding the new nuclear medicine camera, along with information about the Woodstock Hospital Foundation's new online 50/50 raffle.

- To access the newsletter, please click on the cover below. To download the newsletter to print, click [HERE](#).
